EDUCATION

- **Techno India NJR** Udaipur, Rajasthan
B.Tech (Computer Science) – 9.0 CGPA July 2020 – May 2024

EXPERIENCE

- **Ravarem Technologies** Ahmedabad, Gujarat
User Experience Designer June 2025 – Present
 - **Send365 UX Revamp:** Overhauled the UX of Send365 (B2B gifting platform) by restructuring complex flows that caused high drop-offs; reduced task completion time by 40% and improved onboarding success by 30%.
 - **Website Redesign:** Redesigned the company website to fix unclear navigation and low lead quality; improved IA, increased session duration by 25%, and boosted lead conversions by 18%.
 - **Product + Brand Ownership:** Owned all product and brand design as the solo designer; ensured consistent UX/UI and reduced design production time by 40% through unified systems.
 - **Design System:** Built and maintained a scalable design system solving UI inconsistencies; cut design-dev back-and-forth by 50% and accelerated feature releases.
 - **UI Testing & QA:** Conducted UI testing and dev QA to catch layout issues, responsiveness bugs, and blockers; reduced post-release revisions by 35%.
 - **Collaboration:** Coordinated closely with developers for urgent deliveries, providing rapid design fixes and clarifications; reduced sprint spillovers by 20%.
- **Linearloop & Qable** Ahmedabad, Gujarat
Junior UI/UX Designer July 2024 – Feb 2025
 - **Responsive Design:** Designed responsive, mobile-first interfaces, resolving cross-device usability issues and reducing developer rework.
 - **End-to-End App UX:** Led the full UI/UX for a client mobile app, delivering intuitive task flows and receiving excellent client feedback.
 - **Website Redesign:** Redesigned the company website using UX insights and A/B testing; increased click-through rates by 25% and improved engagement.
 - **DesignNBuy Improvements:** Enhanced visual hierarchy, accessibility, and navigation, boosting session time by 30% and reducing bounce rates.
 - **Marketing Assets:** Delivered landing pages, email templates, and social creatives that contributed to a 20% growth in campaign engagement.
 - **Stakeholder Collaboration:** Presented concepts and iterated quickly based on feedback, ensuring alignment with business and user goals.
- **RNS IT Solutions** Jaipur, Rajasthan
User Experience Designer (Freelance) Sep 2023 – June 2024
 - **Cross-Platform Design:** Delivered consistent UI/UX and digital assets across web and mobile, improving visual coherence and design quality.
 - **Conversion-Focused Deliverables:** Designed landing pages and assets supporting digital marketing; contributed to measurable growth in lead generation.
 - **Rebranding Initiative:** Led a company-wide rebranding effort, strengthening brand presence and recall.
 - **User-Centered Design:** Translated client requirements into user-centric design solutions, improving product alignment by 20%.

- **Bhairva Software** Udaipur, Rajasthan
Freelance Designer *2023 – 2024*
 - **User-Centric Features:** Designed features with developers, improving usability and increasing client satisfaction by 30%.
 - **Visual Assets & Pitch Decks:** Created high-impact visuals and investor presentations, achieving 100% client approval.
 - **Startup Product Design:** Designed responsive web and mobile interfaces for two early-stage startups, supporting MVP launches and onboarding.
 - **Prototyping:** Built interactive prototypes that accelerated stakeholder feedback loops.
- **Lakebrains Technologies** Udaipur, Rajasthan
UI/UX Designer (Internship) *May 2023 – Sep 2023*
 - **UX Requirements:** Analyzed research to define UX requirements, improv in feature planning and prioritization.
 - **Cross-Functional Design:** Designed functionalities that increased user satisfaction by 30%.
 - **Website Redesign:** Redesigned the website, increasing engagement by 20% and reducing bounce rate by 30%.
 - **Marketing Creative:** Designed visuals and marketing materials that improved campaign CTR by 25%.
